HISCO ProGold...

HISCO ProGold series of tools combine features of high quality steel blades and solid shank blades with a super strong thick-walled pultruded fiberglass handle with a solid wood core throughout. Our 500 Series feature a solid fiberglass handle. The HISCO ProGold yellow Zink coated steel sleeve fits over the neck of the blade extending the natural stress point of the shovel providing unparalleled handle and head-to-handle strength. Our ProGold steel sleeve also protects the handle from abrasion.

HISCO's Closed Back Blades

are stamped from a single piece of steel and the hollow back, known as the "frog", is welded closed with a steel plate to reduce soil build-up and add strength. Blades have forward turned steps for secure and comfortable foot placement. Handles are attached with a single rivet and feature a reinforcing metal collar at neck.
